SIOUX INDIAN'S PORTRAIT. Onepapa's Likeness Adorns the New

Washington, June 28.-Some curiosity has been expressed in regard to the Indian head of the new \$5 bills, and inquiries have been made as to whether it is a portrait. Acting Secretary Vanderlip yesterday answered this question in the affirmative, but said the subject of the portrait was not selected for this distinction because of his heroism or special friendship for the whites. "We wanted a picture of a typical indian, and one which would contain a number of decorations, so as to be difficult to counterfielt. In the picture of Original, a Sioux, we found what we wanted, a representative type with an claborate head-dress of feathers, bits of fur and the like, arranged so as to be very difficult to reproduce. It was taken from a collection of portraits at the Bureau of Ethnology, Smithsonian Institution, where we examined a great number of portraits before selecting this one. I never heard of Onepapa before, and cannot give his history."

Mr. Vanderlip remarked that since the passage of the manical bill the department has been overrun with orders for hank note plates. Over a thousand creters had been received, and the fureau of Engraving and Printing was so filled up with these orders, it being impossible to produce in ore than seventy or seventy-five plates a week, that work on the plates for the new mational currency had been practically brought to a standstill. swered this question in the affirmative, but
